

The Agatec MR360R offers accurate grade information for all visual machine control applications.

Large 360° detection windows pick up any rotating laser, from any angle.

Built-in vertical indicator monitors angle of the stick, signaling if it's plumb or under-or over-extended.

Receiver has plumb LED indicator; remote display has direction arrows for plumbing up the dipper stick.

Magnet mount allows quick setup and easy movement from machine to machine.

Clamp mount also available.

- **360° detection windows for total coverage**
- **In-cabin remote display for best control on operations**
- **No cables required**

Available with magnets or clamps
